

Health Balances (A Private Membership Association)

10814 206th Street E., Graham WA 98338 (206) 244-1383

ORDER INITIAL TESTS (Prices current as of 11/10/2017)

Initial test: Please fill out the **Client Information (intake form), initial saliva test forms and Metabolic Screening Questionnaire** as completely as you can. **If you are not yet a member of Health Balances, fill out and sign the application.** Please use black ink.

We would like two saliva samples. Write your name, the date, and your phone number on the small manila envelopes. Remove your watch and make sure your cell phone is at least a few inches away from you. Make sure that you do not have black clothing covering your navel. (That irritates the nervous system.) Take off glasses that have a metal frame across the front. Take out the small white slip that is in each envelope, put it in your mouth, and saturate it (get it completely wet) with saliva. **Do not let the slip contact cosmetics such as lipstick.** Replace it in the envelope and allow it to dry. **DO NOT** seal the envelope.

If you do not have sample envelopes: Take a sheet of white copy or printer paper and draw **two circles** about 2 inches in diameter on the paper. Lick the areas inside the circles and get them wet with saliva. Allow them to dry. Write your name, phone number and date on the sheet.

I want the **Standard Saliva Test** from the lab at \$175 (\$200 if you are having extra items tested)_____

I want the **Free Short Test (first time clients only)**. Payment of the membership fee is required but it will be given back as a credit. \$21 _____

Enclose a personal or bank check in USA currency for the test that you want.

NOTE: These tests only measure energetic frequencies. They are not medically accepted tests and they do not provide a diagnosis.
